

You have been provided data for 3 subsidiaries of BayWa r.e. Solar Trade that contains data on Purchase orders, Sales orders, Inventory, and Items

1. You need to create comprehensive analysis so that the business can make informed decisions on the performance of a certain subsidiary, key indicators on operations etc.
2. Feel free to make your own assumptions and provide a comprehensive analysis for 2 separate audiences.
  1. For C-Level
  2. Operations managers
3. We would appreciate if you created the analytics on a BI tool like **PowerBI/Tableau** such that it is user friendly, easy to understand, and easy to navigate by non-technical stakeholders.

Please share your analysis either by

1. Publishing to an online version of PowerBI/Tableau and share the link with us. You can also share a short report on your key findings and steps taken.
2. Or creating a report with the necessary screenshots of the dashboard, the data model, the steps you took for data processing and cleaning, and your key findings

Please send us your analysis no later than **Wednesday, February 5<sup>th</sup>, 2025 by 12:00 hours.**
